1. Registration Status

Indicates whether you are using the trial version or the registered version

2. Deauthorize Computer

Once installed, Social Booth is tied to that particular machine. In order to transfer the license to another machine, you will need to deauthorize it first.

Note: If you forget to deauthorize, or no longer have access to the machine because of a crash or reformat, you will need to contact support to have it done manually.

3. Installed Version

The currently installed version #

4. Released Version

The currently released version #

5. Download Update

Click here to download the latest update.

Note: When there is an update available, the download icon will show above the Registration tab.
