3 Data Collection Export

4 Email Report

(<https://s3.amazonaws.com/cdn.freshdesk.com/data/helpdesk/attachments/production/3010932248/original/SocialBooth-reports.png?1436679583>)

Social Booth does data collection and saves the info in the Reports tab. That data is specific to each event.

## 1. Counters

These are counters for each service used.

## 2. Reset Counters

Click these icons to rest the counters

### 3. **Data Collection Export**

The data collection export will show the following info if entered and/or available from the service:

- Session Date
- Session Time
- Email 1
- Email 2
- Email 3
- SMS Phone #
- Twitter Login
- Facebook Login
- Facebook ID
- Facebook Name
- Facebook first name
- Facebook last\_name
- Facebook Gender
- Facebook Age\_range
- Facebook Location
- Survey Answer 1
- Survey Answer 2
- Survey Answer 3
- Survey Answer 4
- Survey Answer 5
- Associated Photo
- PB Cloud Code

*Note: If you are interested in collecting email addresses and are enabling several different upload options besides email, you may want to ask for the email as one of the survey questions, as this will ensure that more users will enter their address as opposed to only the ones who choose email as their upload option.*

*FB info is not always guaranteed and is dependent on privacy settings.*

### 4. **Email Report**

Enter the email address to send the data collection report. This will use the email settings in the email tab. You must be connected to the internet to send.
